## 15" LCD TOUCHSCREEN

We envisioned a touch monitor that would set a new standard of excellence creating a monitor form factor that is a breakthrough in display design. Meeting this goal required fresh thinking novel methods and ultimately a totally new touch monitor. The MicroTouch M150 Touch Monitor is the culmination of this innovative new approach. ----Touch monitor users know standard desktop monitors and touch monitors are worlds apart. Flat panel monitors are slim sleek lightweight and typically have a small footprint. All of this can translate into a monitor that is unstable to the touch. We designed the M150 monitor to offer all of the benefits that LCD technology affords yet remain remarkably stable to the touch. The M150 offers a patent-pending feature set combining stability adjustability aesthetics and mounting flexibility in a compact package.

## 15" LCD TOUCHSCREEN CHASSIS MOUNT

The MicroTouch 15 Inch CT150 Touch Monitor from 3M is designed for easy integration into kiosks, industrial enclosures and other installations where compact, touch-integrated displays are preferred.

### Versatile Integration

- ❑ Innovative design provides an array of mounting options

- ❑ Three bezel options for maximum design flexibility

- ❑ Accepts 12V DC or 110/220V AC power

- ❑ Remote OSD module simplifies display adjustments

### High-Performance Display

- ❑ 15" TFT LCD panel with 500:1 contrast ratio delivers crisp, vibrant images

- ❑ LCD display module that can be print-color matched, making it an ideal choice for photo kiosk applications

P/N: TRK-117131522501 - $649.46 EA*

**17" LCD TOUCHSCREEN CHASSIS MOUNT**

**Slim, Compact Display offers Durable Touch Solution**
MicroTouch™ ChassisTouch LCD monitors from 3M are designed for easy integration into kiosks, industrial enclosures and other installations where compact, touch-integrated displays are preferred. ChassisTouch LCD monitors offer a more compact enclosure, better optics, lower power usage, longer life and less heat generation than CRT chassis monitors. These slim profile monitors are ideal for use in a broad range of kiosk and light industrial applications.When design space is limited, the slim metal case of the ChassisTouch LCD touch monitor is ideal. Back-mounted display controls are accessible even with the monitor sitting flush with the face of the enclosure, improving the aesthetics of your integration. An optional bezel (user installable) is available for applications requiring a more finished appearance.

**Making the Difference**
The ChassisTouch LCD touch monitors are available with MicroTouch™ ClearTek™ II capacitive touch screen technology. ClearTek™ II provides accuracy and sensitivity to the user's touch while offering outstanding durability and resistance to contaminants such as dirt, liquids, and harsh chemicals.

## 15" LCD TOUCHSCREEN

The 1522L15 Inch LCD desktop touch monitor offers the same sleek design as the 1529L 15 Inch LCD desktop model, but is more cost effective for the end user. The optional 3-track magnetic stripe reader (MSR), programmable to either HID or Keyboard Emulation (USB only), is easily installed by the user, providing an elegant, integrated solution and eliminating the need for external brackets or attachments. The 1522L also incorporates hidden cable management, resulting in a convenient and space saving design that makes the touch monitor ideal for POS applications. The 1522L is offered with a choice of touch technologies: IntelliTouch surface acoustic wave, AccuTouch five-wire resistive, CarrollTouch Infrared, Surface Capacitive, and Acoustic Pulse Recognition.

## Touchcomputer 17" LCD All-in-One Desktop

Expanded versatility, bigger screen, and improved serviceability, all in a compact design: the 17A2 17 Inch LCD all-in-one touchcomputer provides an attractive ultra-compact 17 Inch touch solution that can fit virtually anywhere in any point-of-service environment. The 17A2 touchcomputer with dual video display capability includes a choice of touch technologies: AccuTouch five-wire resistive, IntelliTouch surface acoustic wave, CarrollTouch infrared and the company's innovative Acoustic Pulse Recognition (APR) that blends the benefits of all three. Elo's touch technologies provide stable, durable touch options that are resistant to scratches and liquids and can be activated in a variety of ways. Also, the 17A2 comes with 1280 x 1024 SXGA resolution and 5 x 4 aspect ratio to display clear, precise graphics for improved readability. The space-saving, compact design of the 17A2 touchcomputer offers increased flexibility for easy integration of a variety of optional field-replaceable peripherals, including: three-track magnetic stripe reader (MSR) for credit, ID and loyalty card transactions; customer-facing display to verify those transactions; biometric fingerprint recognition for increased security; 3-watt speaker bar with optional single-line or omni-directional barcode scanner; and DVD drive. Serviceability is enhanced with easy access to the hard drive and compact flash through a slide-out drawer.

## Touchcomputer 15" LCD All-in-One Desktop

The 15A1 15 Inch LCD all-in-one touchcomputer expands the company's high profile family of reliable, easy-to-integrate multifunction touch solutions that can meet the requirements of any systems integrator, OEM or value-added reseller. Retail-rugged, the 15A1 features a spill-resistant sealing, a stable tilt base that is removable or reversible for wall mounting, a VESA mounting option, cables hidden from user view, and side controls with lockout for public use. Touch options include a choice of AccuTouch five-wire resistive, IntelliTouch surface acoustic wave, CarrollTouch infrared or the innovative Acoustic Pulse Recognition (APR). Additional options include a three-track magnetic stripe reader (MSR) and rear-facing customer display. Operating system options support Microsoft Windows XP Professional Service Pack 2 and Microsoft Windows Embedded for Point of Service (WEPOS). The silent, fanless design of the 15A1, and its compact integrated peripherals, make this touchcomputer an ideal choice for point-of-sale, point-of-service, loyalty systems, kiosk information systems, medical and light industrial, airport security, home control, and Internet access points. The 15A1 is an ideal replacement product for the 1529L touchcomputer.
